IF YOU ARE NO LONGER INTERESTED IN GROWING FLOWERS WILL YOU KINDLY HAND THIS LIST
TO A FRIEND WHO IS A FLOWER GROWER. THANK YOU.

20th ANNIVERSARY Price List GLADHAVEN GARDENS

George G. Fowler, Prop.

North Main Street

1942

Franklin, N. H.

THIS LIST CANCELS ALL PREVIOUS PRICES

GREETINGS, My Friends and many thanks for your continued patronage for the past fifth of a century. Twenty years is quite a long time to be growing and selling Gladiolus bulbs. In spite of the increased costs of about everything, I am able to offer you first class bulbs with but few advances in price, and in many cases at a price lower than ever. Many of the newer varieties are in very limited quantities. Order early and you will not be disappointed.

CONDITIONS OF SALE

All prices are subject to the following:

- (a) Any Federal or State tax that may be imposed on sales.
- (b) For stock on hand when order is received.
- (c) No bulbs shipped C. O. D. without a deposit.
- (d) No minimum lot split, and no single item less than 10c. Paper bags are in short supply and single bulbs at 10c each or less cost too much to pay to pack, when put up separately.
- (e) Every order of not less than \$1 will be shipped prepaid anywhere in the 48 States of U. S. Cannot ship to Canada. On orders for less than \$1 add 10c for postage and packing.

I GUARANTEE that the bulbs bought from me will be true to name, properly cured for planting in Spring of 1942. Cannot guarantee crop or anything depending on weather or cultivation.

References: Franklin National Bank, Dunn & Bradstreet.

READ VERY CAREFULLY

The first column of figures lists the smallest or minimum lot of a kind I put up. A single figure means the price for one bulb. The price would be thus for two or more bulbs, 2—10, meaning two bulbs for 10c; or 3—10, three bulbs for 10c. No single item for less than 10c. 5 bulbs at half the price for ten if the price amounts to at least 10c. 100 bulbs at four times the 25c price.

SIZE OF BULBS

Large bulbs are 1¼ inches in diameter and over, medium size are ¾ to 1¼ inches, averaging 1 inch in diameter. Small bulbs are those under ¾ of an inch in diameter. All medium size bulbs should make a good spike and large bulbs will give the largest spike the first year, and bloom a little earlier.

Bulbs of different varieties cannot be assorted to get the 10, 25 or 100 bulb rate. Postage paid on orders of \$1 or over in U. S. For orders less than \$1 add 10c for postage.

Zauberflote, large peach rose, red blotch	2—15	.60		2—10	.40	

SPECIAL GLADHAVEN ASSORTMENT

For those who do not care about names or who want glads for landscaping, I highly recommend this beautiful mixture representing about every known shade and color of the Gladiolus family. In 20 years I have never had a complaint about this assortment and it has been improved every year, by adding new varieties. To the best of my knowledge and belief there are none of the old style primis in this assortment, but are all good named varieties. For best results plant early in May as it will give you a long blooming period, some blooming in 65 days, some 75, some 90 and others over 100 days.

Large bulbs 35c per doz. 50 for \$1.10 or 100 bulbs for \$1.90

Medium bulbs 20c per doz., 50 for 60c or 100 bulbs for \$1.00

100 small bulbs 50c

All postpaid

MY BIGGEST DAHLIA OFFER

Mrs. Fowler has been growing dahlias for a number of years and I have been selling them for her. She only grows the new and choice kinds. It looks now as if labor would be very short next season, so Mrs. Fowler has decided to close out all her dahlia tubers at the low price of \$1.25 per doz., unlabeled but all good tubers. Cannot ship before the middle of April. If you want some have them reserved. Prepaid if order amounts to at least \$1.

TULIP BULBS

I expect to have a good assortment of tulip bulbs for sale next September. Also other spring blooming bulbs. If interested write for prices about August 10, 1942.

If you are not quite ready to order now, please keep this list for future reference.

BULBLETS

I have quite a lot of bulblets of many named varieties that I am offering this year in mixed lots, 300 for 25c. I do not guarantee bulblets to grow. These are all choice kinds and an easy way to get a lot of young bulbs at a low price. Cultural directions.

IRIS PLANTS

Beautiful hardy Iris, grow anywhere, best on light sandy garden soil. 12 Strong plants, no two alike, only \$1 Postpaid. Not shipped until after June 15th.

FULL CULTURAL INSTRUCTIONS WITH EVERY ORDER

ORDER EARLY, use order sheet and state when you want bulbs shipped. MAIL orders are best sent after March 1st. EXPRESS orders anytime. A 25% deposit will hold your order till May 1st. No orders reserved or shipped without a deposit.

SAF-T STORAGE POWDER FOR GLADIOLUS BULBS

As far as I know I am the only Gladiolus grower making and selling a storage powder for glads. This powder is put on the bulbs in winter storage after having the old bulb removed and cleaned for winter, not husked of the protecting covering. This powder helps to eradicate thrips in storage and also helps check fungus diseases of glads. Not harmful to bulbs or human beings.

Price per pound 20c, 3 pounds for 50c. Postage extra. However I will prepay to third zone if there are \$2 worth of bulbs to go with it. Guaranteed to give satisfaction.

JOIN THE NEW ENGLAND GLADIOLUS SOCIETY

This society issues a Year Book every year that is worth more to a Gladiolus fan than the cost of joining, also stages a grand Show every August. Send your name and address to Albin K. Parker, Box 2, Norwood, Mass., and enclose \$1 or enclose \$2 and get the special Supplements through the year. Add an extra dollar to your order for bulbs and I will have your name enrolled. If you belong to this society now, mention it when ordering, you will receive some extra bulbs. I have been a member for quite a number of years.

VERY IMPORTANT

On every letter you mail, place your name and address somewhere on the outside of the envelope, for your own protection and to save the Post Office Department a lot of worry, sometimes. Write plainly.

EEZY WEAR GARDEN GLOVES

I use and highly recommend Eezy Wear Garden Gloves. They are made from very thin leather that is very durable and soft. Protects the hands from thorns and dirt. You will be surprised how well you can weed and handle bulbs without any inconvenience. Should be used when planting gladiolus bulbs that have been soaked in corrosive sublimate or other strong solution. They give bare-hand freedom.

Sizes for Women, small, medium and large. For Men, medium and large. Price is only 75c postpaid, or two pairs for \$1.40. A GOOD INVESTMENT.

When you dig your bulbs in the fall be sure to have them well dried out before placing in winter storage, and don't neglect cleaning off the old bulb and roots on the base of the bulb soon after going into storage. Do not remove the husks before planting time in the spring. After cleaning, storage powder may be scattered over them at the rate of an ounce to 100 large bulbs. Don't let your bulbs freeze at any time.

By reading this Price List carefully, a lot of unnecessary correspondence may be saved. I do not care to exchange named bulbs for unnamed or mixed lots from unknown sources.

SUBSTITUTION

I do not substitute one variety for another unless you request it. Sometimes if I am out of the size ordered I fill the order with bulbs of the next nearest size, giving as much or greater value. EARLY ORDERS WILL AVOID SUBSTITUTION!
